REDDY LAKSHMAN REVANTH

lr3782@srmist.edu.in | 9398081035 | 2026
B.Tech, Computer Science and Engineering - Software Engineering
Address : Potheri,Chennai

Education

SRM IST-Kattankulathur 2026
B.Tech · Computer Science and Engineering - Software Engineering CGPA - 8.64/10

CHAITANYA AC CAMPUS 2022
Class XII - BOARD OF INTERMEDIATE EDUCATION: · mpc · NANDIGAMA Percentage - 93.9%

NARAYANA ETCHNO SCHOOL 2020
Class X - Board of Secondary Education ANDHRA PRADESH, INDIA · SSC · NANDIGAMA Percentage - 100%

Skills

Programming Languages: C++, C, SQL, Python, Dart
Tools and Technologies: React, Figma, Django, Firebase, Git, Node.js, Express.js

Experience

Samsung May 2024 - Jan 2025
Samsung PRISM · Engineer · Intern Remote

- Worked on an AI project to build a system that can generate image captions using a CNN-LSTM model and then extract hashtags from the captions using a Transformer model (T5).
- Assisted in training the models, preprocessing image and text data. Tuned the Transformer model for improved hashtag prediction accuracy.

Infosys | Link Jan 2026 - Apr 2026
Specialist Programmer · Power Intern · Intern Mysore

- Developed agentic AI solutions using Python and LangChain, implementing RAG pipelines, prompt engineering techniques, and multi-step agent workflows for enterprise knowledge management applications.
- Contributed to the development of an open-source enterprise knowledge platform inspired by DeepWiki, enabling contextual document search, automated knowledge retrieval, and AI-assisted information discovery across organizational resources.

Projects

Play - T Transfer Music | Github Apr 2025 - Jun 2025
· Flutter, Node.JS, MongoDB, REST API, Riverpod, Express.JS, MVC Architecture App Development

- built a mobile app that transfers playlists across platforms using a NodeJS backend with O Auth 2.0 and automated token lifecycle management.
- implemented a universal abstraction layer to normalize API responses and used fuzzy matching algorithms to accurately map songs across platforms.
- developed middleware pipelines with validation, rate-limit handling. used MongoDB for storing metadata.

NoteMate | Github Dec 2023 - Apr 2024
· Flutter, Supabase, Provider, REST API, MVC Architecture App Development

- Developed an application that lets users manage their promissory notes and organizes the data into a clear financial platform.
- implemented automated interest calculation and asset tracking, enabling users to monitor outstanding loans, upcoming interest cycles and total returns across all lenders and borrowers.

Handy Cursor Apr 2025
· Python, OpenCV, MediaPipe, PyAutoGUI Computer Vision

- Developed a Windows-based virtual mouse application enabling touchless interaction through real-time hand tracking using OpenCV, MediaPipe, and PyAutoGUI.
